

FOR IMMEDIATE RELEASE: 2/17/2023

EmergenceMed LLC Welcomes New Finance Manager and Celebrates Promotion of Co-Founder Dr. R. Lyle Hood, Ph.D.

Trauma Care Focused MedTech Company Creates Potent Team

San Antonio, Texas: EmergenceMed, a San Antonio MedTech based start-up with a focus on warfighter care is proud to announce the addition of Matthew Baburek as Finance Manager for the entity. Mr. Baburek brings to us a wealth of experience in MedTech financing, and a powerful vision for a path forward. With Mr. Baburek at our side we believe we will be able to raise the necessary capital to leverage the United States Air Force AFWERX Program award into a widely available airway device that will further enhance the safety of not only our warfighters, but all those in need of crucial emergency care.

Further, in what is a banner start to 2023, Co-Founder and now CTO, Dr. R. Lyle Hood, Ph.D. has been promoted to tenure at the University of Texas San Antonio for his work in Biomechanical Engineering. Dr. Hood's Medical Design Innovations Laboratory saw a profound year in 2022, with nine peer-reviewed articles published, approximately two million dollars in funding awarded, five intellectual property actions, and thirty conference presentations. Dr. Hood, a Texas resident through and through, and son of a dentist, started at the University of Houston with dreams of curing the worlds ills through technological innovation. He spent time at Virginia Tech for his Ph.D., but returned home to Texas as soon as possible, working hard in the Texas Medical Center. When he saw the opportunities the that San Antonio offered with its close relationship to the military, he knew UTSA was the place for him. Dr. Hood is quoted as saying "It's a pleasure to work with my students every day, and I'm thankful that I not only develop technology that saves lives, but also keeps my students, and their families, safe and healthy for decades to come. San Antonio is a hot bed of MedTech, and EmergenceMed is at the cutting edge. I'm thankful to the UT System for their foresight in supporting entities like ours, and look forward to furthering our mission of translating new technologies and saving lives."

About EmergenceMed LLC: a University of Texas spin-off technology startup with a focus on developing solutions to solve critical problems in emergency care, trauma, and in combat casualties. Founded in 2020, the team consists of Co-Founder, and CEO Dr. Robert A. De Lorenzo, MD, a professor of emergency medicine at UT Health San Antonio (UTHSA), Vice Chair of Research for the Department of Emergency Medicine, and Adjoint Faculty Member in the Joint Graduate Program in Biomedical Engineering at the University of Texas at San Antonio & UTHSA. He has been board certified in emergency medicine for over 25 years and is retired from the US Army after a career spanning 32 years including two combat tours in Iraq. In addition to the two individuals mentioned about, our leadership suite is well rounded out by Mr. Zach Fallon, BSME, the ever-indispensable Operations Manager.
